

Ashokan – Pepacton Watershed Chapter #559
Trout Unlimited
Chapter Meeting Minutes of July 26, 2019
AKA
Fishing Outing and Gathering

After much discussion regarding water temperatures that might stress trout, and on the heels of the excellent gathering in June, it was decided that we should go ahead as planned on July 26th if for no other reason than to have an enjoyable gathering.

The discussion was rendered moot as shortly after attendees set out to fish, the skies quickly darkened and a heavy summer rain commenced which lasted quite a while.

Most attendees returned to Boiceville Inn pretty quickly, however more than one person persisted believing the storm to be short lived. As I recall, some catches were reported.

Again all in all, quite a **successful event** enjoyed by all who attended!

Respectfully submitted,
Thom Frankel
